

A Slick Guide to *Reducer*

THE BEGINNER'S HANDBOOK

What is Reducer?

Reducer is an all-in-one **connected purchasing platform** that helps users to find, choose, and make savings on their business essentials.

In just a few clicks, Reducer connects to your cloud account to find **accurate savings** based on the **spend data in your bill attachments**.

Their team of experts talk you through your personalised supplier recommendations and handle any switches you choose to take.

Savings can be found in electricity, gas, water, card payment processing, broadband & telecoms, waste & recycling, mobile, and fuel cards.

Benefits

EFFORTLESS

By granting Reducer access to your **bill attachments** in **Xero** or **QuickBooks**, Reducer has all the information it needs to source **better deals** on your core products and services.

ACCURATE

By using your actual **spend data**, Reducer is able to find accurate savings that are **tailored** to your business' needs. A team of experts ensures all switches are suitable.

SAVINGS, FOREVER

Reducer will **automatically** continue to find savings for your business so that you're always on a good deal.

How can connected purchasing help you?

- **Save time** by eradicating the traditional price comparison process
- Save an average of **£1,450 per year** on your essentials
- **Receive offers** that are perfectly suited to your business
- Maximise your chances at **profitability**
- Enjoy **automated recommendations**, forever

Set-Up

Step 1

Your accountant will connect your business to Reducer through Xero or QuickBooks

Step 2

Reducer will analyse your bill attachments to spot areas of overspending and then compare the prices you pay across hundreds of suppliers

Step 3

Reducer creates a personalised cost savings report outlining your recommended switches

Step 4

Choose which offers you'd like to take and Reducer will handle the rest

Step 5

Enjoy your savings!
